NATCO TRUST: THE CSR ARM OF NATCO PHARMA LIMITED – Annual Report 2017-18

About Natco Trust

Shri Venkaiah Choudhry Nannapaneni, the visionary Founder and Chairman of Natco Pharma Limited, is widely credited as the architect of innovating and providing oncology drugs at an affordable price to cancer patients, thus saving precious lives. He is known for his philanthropic services in the form of providing basic amenities like water, sanitation, electricity etc. to tribal villages. This desire to help the community has been embedded in the Natco family's philosophy for decades.

Shri Nannapaneni realises that there remains a yawning chasm between different strata of society, with vast divides in the areas of affordable education, health, hygiene, sanitation, water, livelihoods, farming, social and economic well-being of the community at large. In order to bridge this gap, Natco Pharma Limited established the Natco Trust in 1995.

Concept of Natco Trust

It is with the aim of covering this deficit that Shri Nannapaneni established Natco Trust as the corporate social responsibility arm of Natco Pharma Ltd. It is based in Hyderabad and the core areas of interventions are Education, Health, Hygiene, Sanitation, Water, Livelihoods, Farming, institutional support and need based community infrastructure. It operates in the vicinity of wherever it has a business presence and the mentor's home district.

Corporate Approach

Natco Trust witnessed a transition in the year 2008, when it changed hands and was spearheaded by Ms. Swathi, a family member. Emphasis was laid on the holistic development of an individual, starting from the birth, through their journey into childhood, adolescence, adulthood and in the later years of their life inclusive of socio-economic, physical, mental, ecological and spiritual well-being. More importantly, it transcended the barriers and catered to the holistic requirements and aspirations of the community through their journey of life for health and happiness.

We at Natco endeavour to make a positive contribution to the underprivileged by supporting a wide range of socio-economic demand driven programmes including education, health, nutrition, sanitation, hygiene, livelihood, farming and other community based initiatives to promote a healthy and happy living.

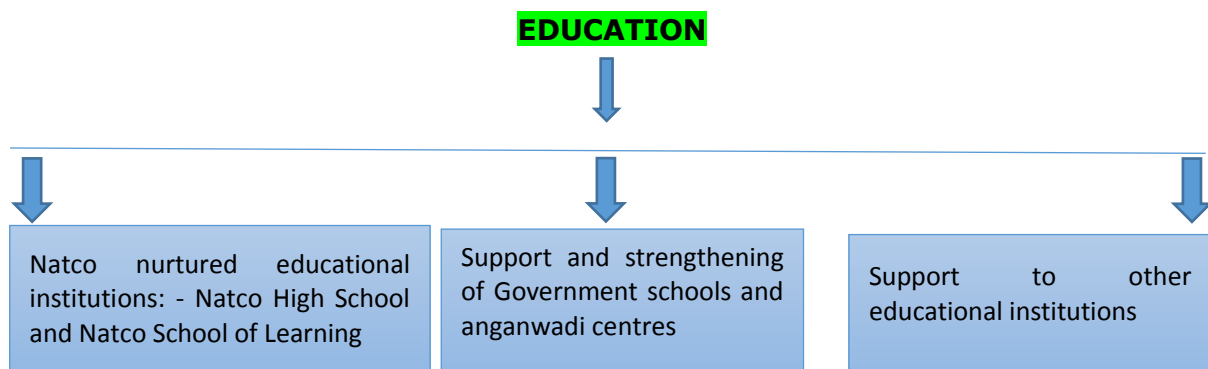

The programme also works towards supporting and strengthening government schools and anganwadi centres in terms of academics and requisite infrastructure development; providing health related infrastructure as well as medicines and patient counsellors to government hospitals; community healthcare services through institutional and outreach; extending "Purified potable water of high standards"; Individual Sanitation Latrines (ISLs); catering to the needs of pregnant and lactating mothers by supplementing their diet in terms of nutritious food supplements and periodical medical check-ups; health education at "Nutrition Centres"; and "Kitchen Gardens" to promote easily available, unadulterated nutritious food plus promotion of organic farming.

Special care is also being given to tiny tots at the anganwadis. School health and hygiene is also focused on as is the creation of livelihoods by establishing skill based vocational training centres.

Areas of operation

Currently, Natco Trust operates in 8 districts namely, Ranga Reddy, Nalagonda, Hyderabad, Siddipet, Guntur, Prakasam, Vizianagaram and Visakhapatnam in the states of Telangana and Andhra Pradesh and also some parts of Maharashtra and Tamil Nadu.

EDUCATION: Education is one of the core areas of intervention with a multifaceted approach and the Trust believes that education not only empowers an individual but also the family and society at large. Under education, Natco Trust works at two levels -- Natco nurtured institutions and supporting and strengthening Government schools

Natco nurtured schools: Natco High School at Kothur, Ranga Reddy district and the Natco School of Learning at Gollamudipadu village, Guntur district have been promoted and run by Natco Trust.

NATCO HIGH SCHOOL: Natco High School was established under the aegis of Natco Trust, to provide education to the surrounding villages and also to the employees children of Natco Pharma Ltd. The journey started with 77 students, 10 class rooms and 10 staff members in the year 1995. Today it has 1611 students with 106 staff members and 67 class rooms.....

The milestones of Natco High School are as follows:

Started in 1995 with 77 students, 10 classrooms and 10 staff members. Currently the school is spread over 9 acres of land with state of the art teaching and learning facilities with 1611 students, 106 staff members and 67 classrooms

Academically the school excelled in achieving 100% results in 10th class, state syllabus

Introduction of XSEED and Butterfly methodology of teaching for pre-primary to primary classes and 6th to 10th classes respectively. In addition to that, introduction of field based agriculture as part of curriculum

Creation of multi-purpose auditoriums, sports facilities and agriculture lab. Introduction of Art and craft, music and yoga classes for the students

Conduction of career counseling sessions, spell bee and quiz competitions, field trips, National Science Day

Achievements :-Ms. Kushi secured 9th position in the Greater Hyderabad inter school and college Yogasana Competition.

Students got selected for target ball tournament held at Telangana state level and secured second position. The students were also selected for **school games federation** for the nationals to represent Telangana State wherein they have bagged 1st place

Chowkball secured 4th place at National level

Provided free and subsidised education to **375** students

NATCO SCHOOL OF LEARNING: - **Natco Trust** initiated *Natco School of Learning* (CBSE Syllabus) at Gollamudipadu village, Ponnur Mandal of Guntur District in 2011, with an objective of providing good education to the local communities.

The school is located in a serene environment of 9 acres of land with state of the art facilities, trained teachers, XSEED – idiscovery methodology of teaching, well equipped computer lab, library, science laboratory, art and craft, gardening, landscaping and sports facilities.

Started in 2011 with 156 students, 25 staff members and 30 classrooms on 9 acres of land. Currently has 829 students, 81 staff members and 64 classrooms

Academically, the school achieved 100% results in 10th class State exams.

Introduction of XSEED-idiscovery methodology of teaching and introduction of field based agriculture learning as part of curriculum

Promotion of sports and state of the art facility for sports. Introduction of art and craft, music and yoga classes for students

Achievements :

Science Olympiad: 16 students received medals for scoring less than 1000 in All India Rank.

Arts and Crafts: Won the 1st place in Kala Utsav organised by GoAP
11 students received the KALA RATNA award from GoUP for Kalabharathi competition

Received SWACHH VIDYALAYA PURASKAR - award from MoHRD- GoI

Sports: The girls came in 1st and the boys stood in 2nd place in the National softball competition held in Punjab

Natco School of Learning was honoured with XSEED impact award 2017 among 3000 schools in India

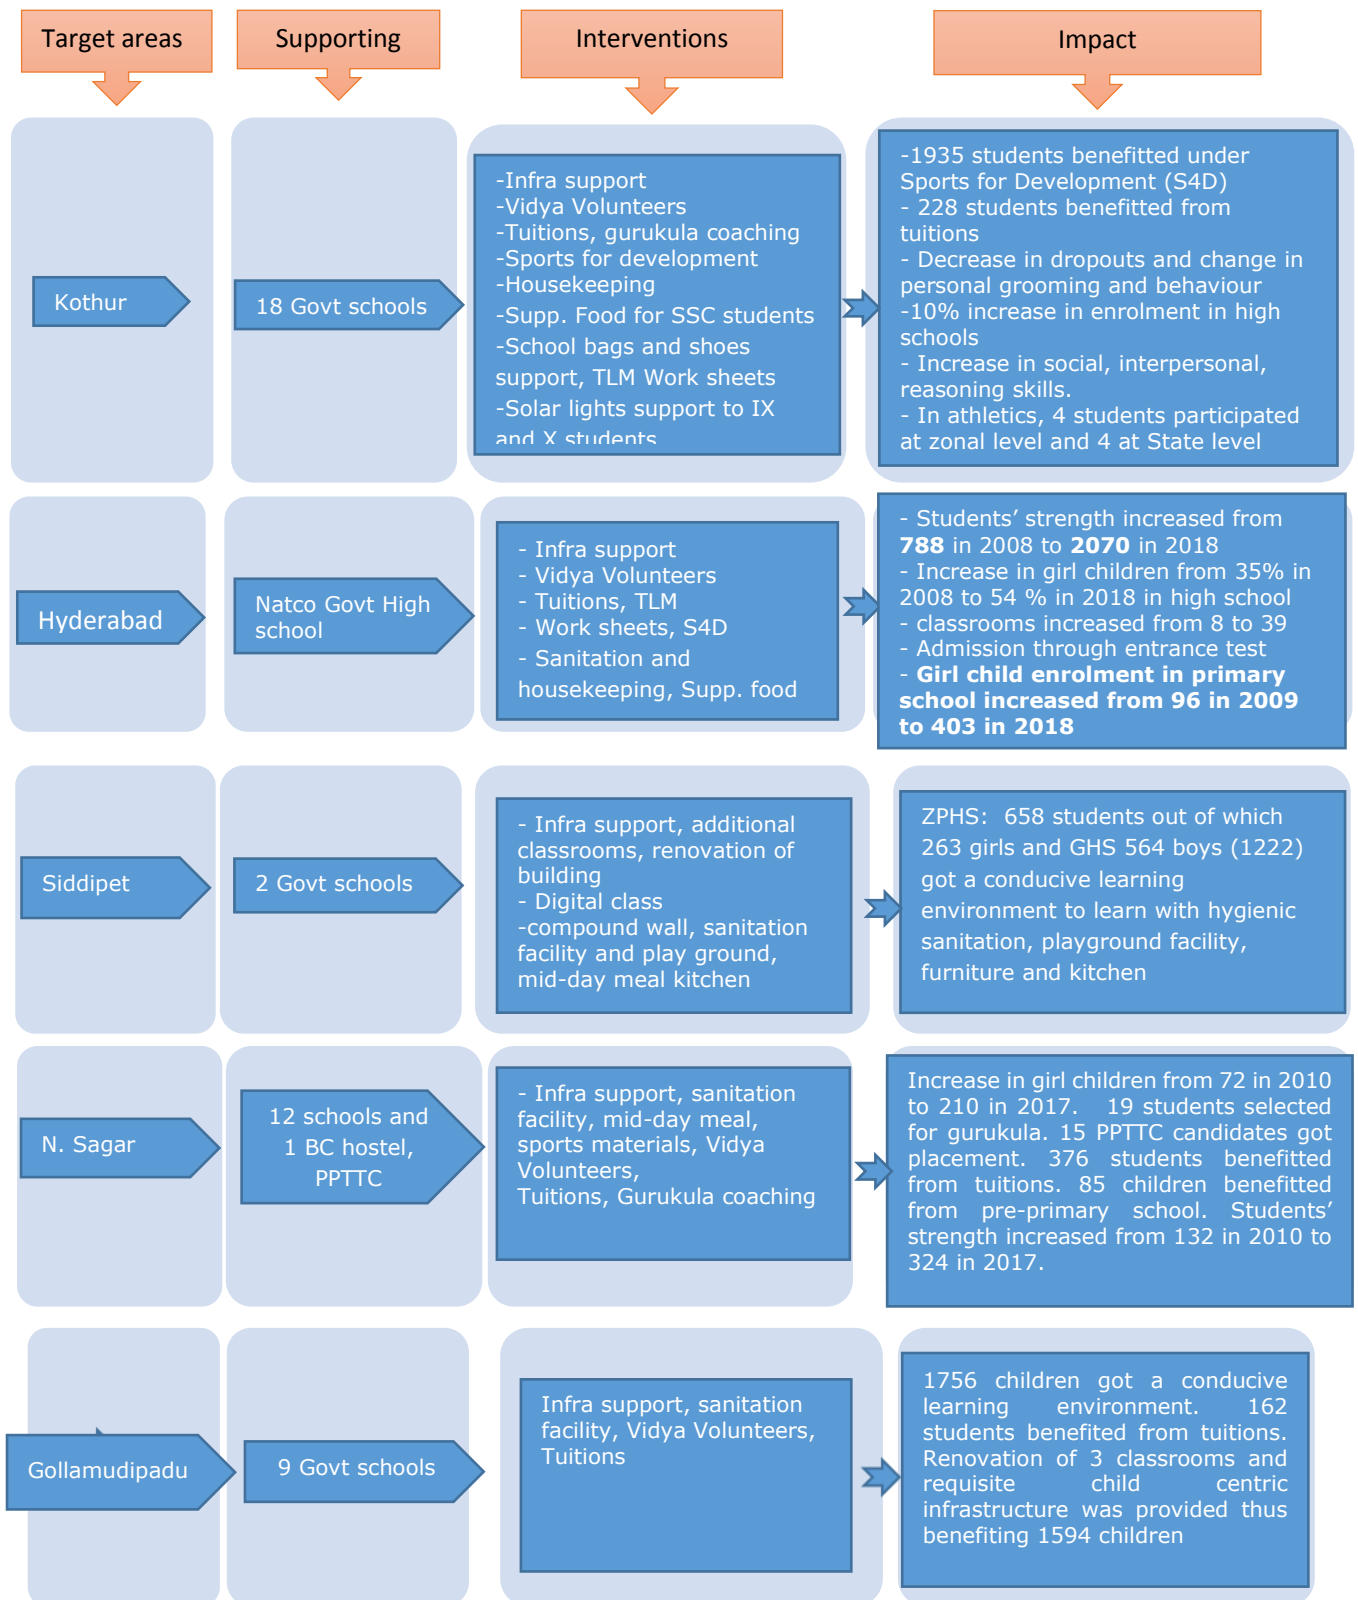

Education: Support to Government schools and Anganawadis

We are committed to create an empowered environment for children through education initiatives. Emphasis is being laid on access, equity and the quality of education by extending need based support in the areas of appropriate infrastructure, skilled teachers, innovative teaching methodologies and curriculum, access to basic teaching and learning materials for improving the competence of the children. Additionally, we have adopted innovative methods to make learning more interactive and participatory.

Objective: To strengthen government schools in terms of infrastructure, libraries, science labs, Vidya volunteers etc. in order to retain all the eligible school going children in school and impart qualitative education.

Natco Trust supports 43 government schools, out of which 13 are high schools and 30 primary schools in 5 districts of Telangana and Andhra Pradesh.

Support to other educational institutions: - Natco Trust supported the following institutions: Rishi Valley and NICE to promote education for needy and poor children.

HEALTH:

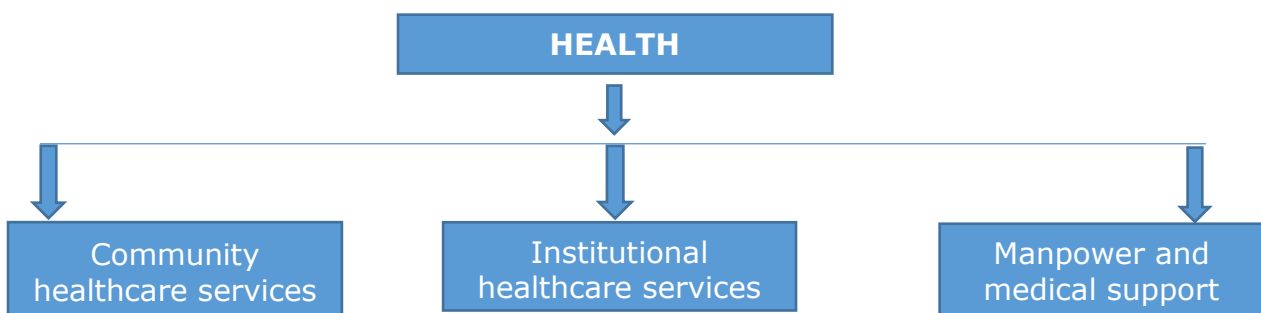

Natco Trust is committed to enhance the healthcare and well-being of the targeted communities. It attempts to improve the health seeking behaviour of the communities on nutritious food, mother and child health, non-communicable diseases, preventive mechanisms through community based healthcare services and health education.

Community outreach healthcare services: Natco Trust initiated 2 mobile clinics and a standalone satellite clinic.

The mobile clinics: The physical well-being of the communities is taken care by "Mobile Clinics" which are miniature comprehensive mobile health care units. These healthcare units travel the length and breadth of **28 villages** in Kothur and Nagarjuna Sagar mandals for providing basic healthcare services along with health education.

Natco Digital Primary Health Centre: It is a standalone satellite healthcare unit initiated in November 2017 at Mekaguda village that caters to the basic healthcare services of the community. It has all the basic outpatient healthcare facilities that are available to all the neighbourhood villages. Around 7000 patients have received timely help inclusive of investigations.

Veterinary healthcare services: Natco Trust extends fodder and medicines to cater to the needs of animal husbandry in and around the villages and habitations of Nandigam and Kothur mandals.

Community outreach healthcare services

Community outreach healthcare services

Basic healthcare services at the doorsteps of the community, investigations and referral services, emphasis on NCDs along with general healthcare with free medicines and investigations

Mobile clinics: Since 2008

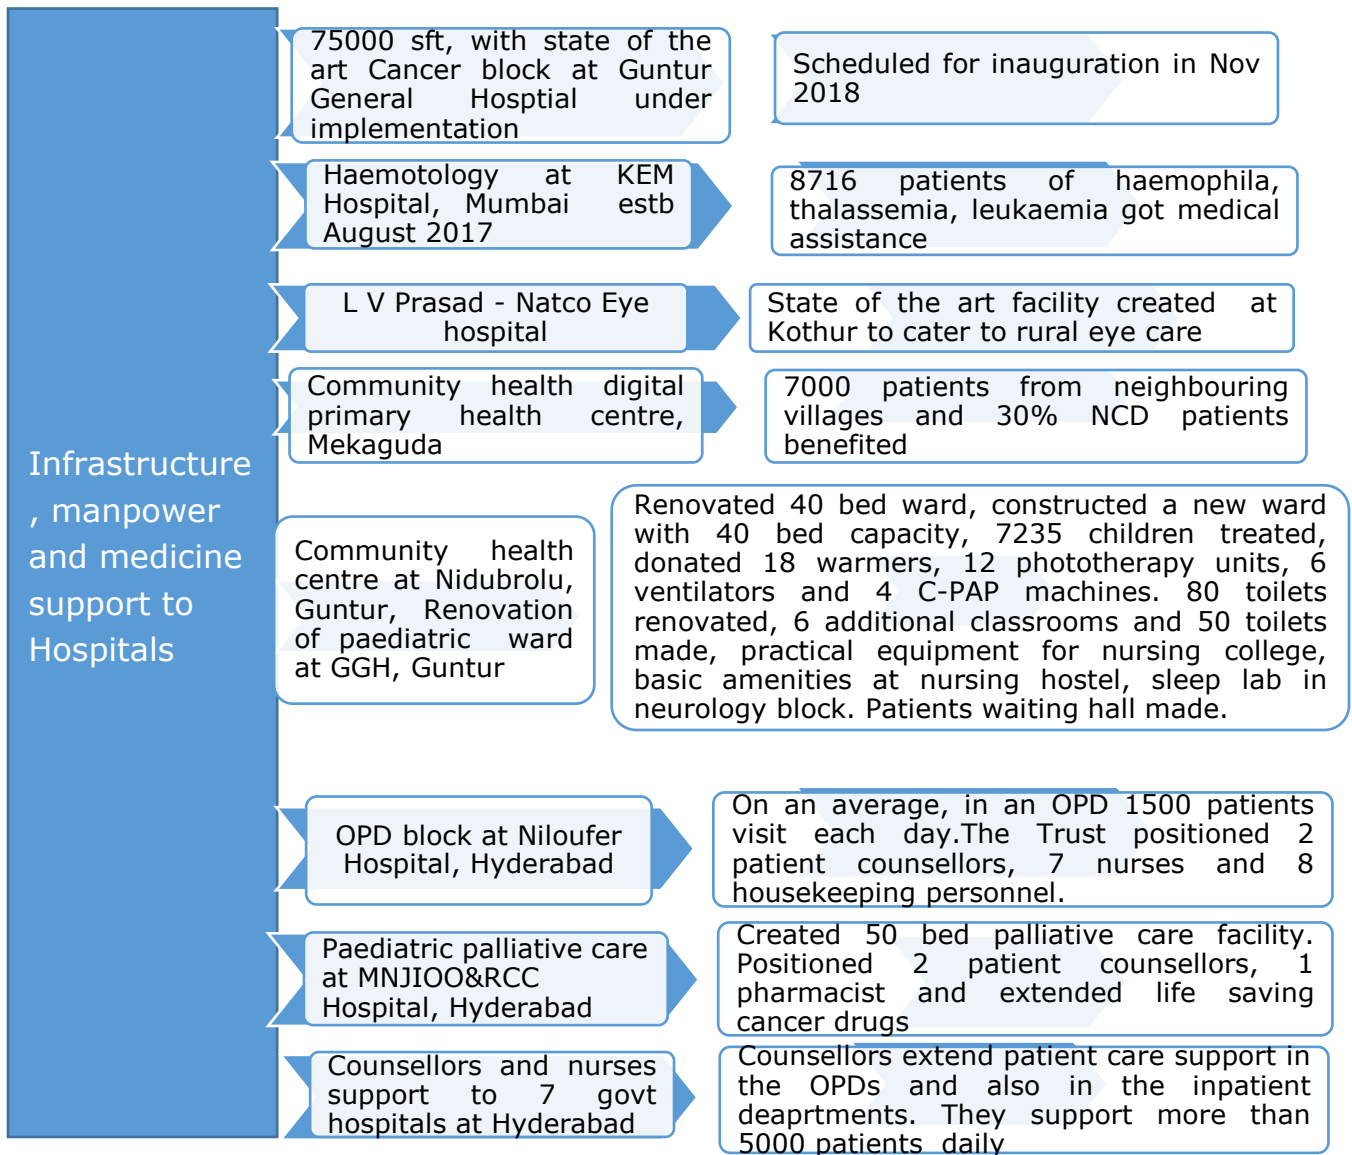

Healthcare services in 28 villages, 35000 + patients covered year on year, school healthcare and specialised healthcare services

Natco Digital Primary Health Centre

The standalone satellite clinic established in November 2017, around 7000 + patients benefitted. 30% of the patients are NCDs.

Institutional Healthcare services, manpower and medicinal support

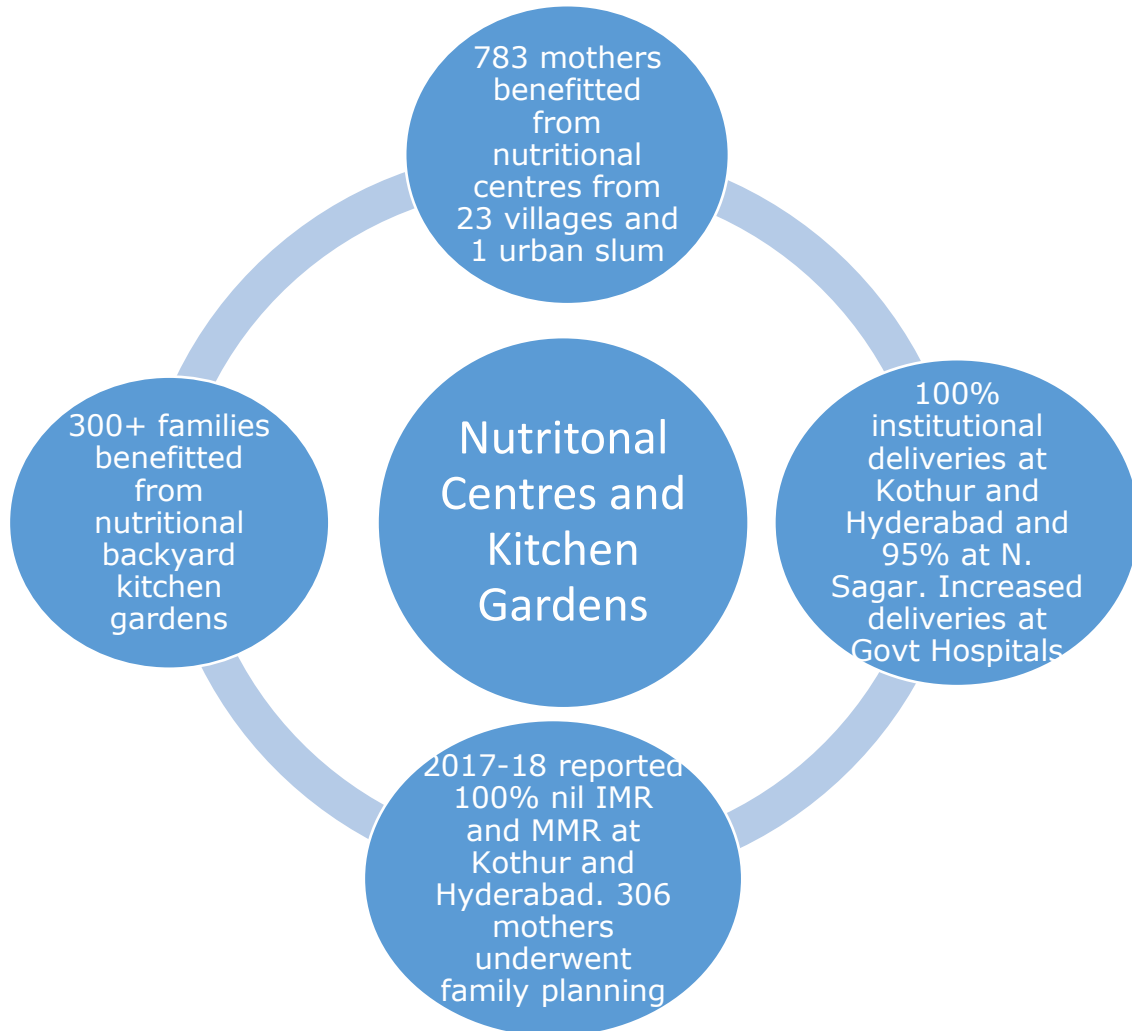

Nutritional Centres and nutritional backyard kitchen gardens

Objective: Prevention of anaemia and malnutrition in mothers and prevention of congenital disabilities due to malnutrition in new-borns thus bringing down the IMR and MMR.

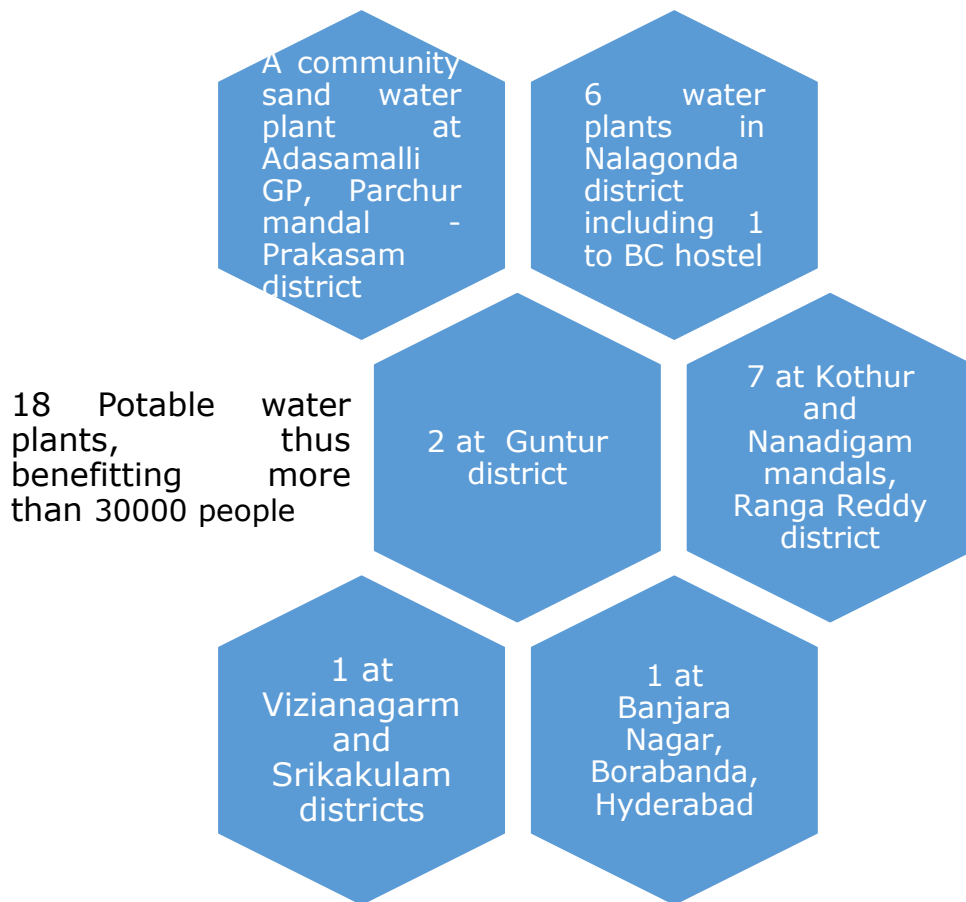

The Nutrition Centres provide nutritional support in the form of supplementary food daily to pregnant and lactating mothers and their children from needy and poor families. The benefits envisaged are improvement of maternal health, increased birth weight of the child and ensuring adequate breast-feeding for the child. Periodical health check-ups and awareness on low cost nutritional food, breast feeding, the physiology of trimesters and the importance of institutional deliveries are also done. Natco Trust supports 26 nutritional centres in 23 villages and 1 urban slum with total beneficiaries amounting to 783.

An effort was also made to provide nutritional food through the promotion of nutritional backyard kitchen gardens. Natco Trust distributed different varieties of vegetable seeds and saplings to promote non pesticide management (NPM) and organic based backyard kitchen gardens to emphasise the concept of healthy living among the people.

POTABLE WATER PLANTS: To prevent water borne diseases and to provide potable water to the community, Natco Trust initiated establishing up of potable water plants for the communities in 20 + gram panchayats at Nalagonda, Ranga Reddy, Hyderabad, Guntur, Prakasam, Vizianagaram and Srikakulam districts and BC welfare schools. One among them was a community purified sand water filter, thus benefitting a population of more than 30000 people.

LIVELIHOODS: Natco Trust has initiated skill centres at Hyderabad, Ranga Reddy, Nalgonda and Guntur districts with an objective of creating value addition skills and income generation through self and wage employment. It has a twofold approach to promote livelihoods that is non-farming and farming.
